The rating scale below is designed to measure the degree to which several aspects of your life are presently disrupted by your health condition (pain and/or symptoms you may be experiencing). In other words, we would like to know how much your health condition (pain and/or symptoms you may be experiencing) is preventing you from doing what you would normally do, or from doing it as well as you normally would. Respond to each category by indicating the overall impact of pain in your life, not just when the pain is at its worst.

For each of the six categories of daily living listed, PLEASE INDICATE THE NUMBER WHICH BEST DESCRIBES YOUR TYPICAL LEVEL OF ACTIVITIES.
0 means no disability at all, and a score of 10 means that all of the activities in which you would normally be involved have been totally disrupted or prevented by your health condition (pain and/or symptoms you may be experiencing).
